Mr. Don Head, Commissioner  
Correctional Service of Canada  
340 Laurier Avenue West  
Ottawa, ON K1A 0P9

Dear Commissioner,

Congratulations on your recent appointment as Commissioner of the Correctional Service of Canada. The Canadian Resource Centre for Victims of Crime wishes you much success and is hopeful that you will work to ensure the interests and needs of victims of crime are a priority within the Service.

The Canadian Resource Centre for Victims of Crime is writing to you with regard to offender Clifford Robert Olson. We work closely with the Rosenfeldt family in order to offer our support in their plight to ensure this killer is prevented from ever harming another child.

Given that this offender is housed in the SHU in Laval, we do not understand how Olson can continue to inflict harm on the people he victimized. Earlier this year, it was discovered that he had a MySpace page. Now, we understand that his personal effects can be purchased on [murderauction.com](http://murderauction.com). The site member selling the items claims to have received 3 boxes of items directly from Olson “loaded with some truly odd items unlike anything else I have seen for sale, personal items, signed affidavits and letters.”

We ask you to investigate how materials may be leaving the prison in order to ensure that Olson’s perversion is not permitted to continue. The victims of this horrible man deserve some peace and also to know that CSC is doing everything in their power to prevent Olson from playing his twisted games.

I look forward to your response.

Sincerely,

Heidi Illingworth  
Executive Director
